

CX-250

MODULAR CONVEYOR / Conveyor Systems

Designed around the process, environment, and maintenance reality it has to support. This reference sheet outlines the platform's standard configuration envelope.

TECHNICAL SPECIFICATION

PARAMETER	REFERENCE VALUE
THROUGHPUT	Up to 1,200 t/h
BELT WIDTH	400-1,600 mm
LENGTH	Up to 250 m per drive
FRAME	Painted / Galvanized steel
CONTROLS	PLC / VFD-ready

APPLICATIONS

Process infrastructure · Water and utilities · Energy transfer · Continuous-duty production

CONFIGURATION NOTES

Axiom systems are reviewed against duty point, materials compatibility, access, controls integration, and applicable site requirements before release for manufacture.

STANDARD SUPPORT

Application analysis · System engineering · Factory testing · Commissioning · Lifecycle support

Sample technical document for portfolio demonstration. Confirm final performance, materials, and compliance requirements against the approved project specification.
